### Secretary's Desk...

Panchakshari Shivacharya Trust is a charitable trust registered under Bombay Public Trust Act 1950. It undertakes religious and social activities. Since 1980 the trust is actively engaged in promoting quality education in technical education by starting Channabasweshwar Pharmacy Polytechnic, Latur in the year 1980. Institution has created its image as one of the reputed Govt. Grant-in-aid Diploma Pharmacy institute in the state of Maharashtra. Together with Diploma in Pharmacy course institution is running Non-AICTE ADMLT program and skill development programs sponsored by Skill Development Ministry Govt. of India. After Realizing the prospect and potential of the course in the emerging scenario of the global pharmaceutical industry, Trust started the self-financed Undergraduate course (B. Pharm) in 2010, Post-graduation course (M. Pharm) in 2012 and recently Pharm. D. and D. Pharm (self- financed) At our Institution, the faculty inspires students to question, think critically and explore for creativity. We bring the best Architecture into the classrooms with eminent advisors & scholars visiting frequently & imparting knowledge to the students. Today, our students can be seen making wonderful progress in their chosen careers.

### Principal's Desk...

It gives immense pleasure to bring out the first issue of this bulletin. It is result of endless efforts taken by faculties & students of Channabasweshwar Pharmacy Polytechnic, Latur. On this occasion I take this opportunity to convey my best wishes to students & readers in their future endeavor. The Institute has history of good results; good academic track, organizing number of student centered & faculty developmental activities & pass out students are employed or self-employed around 75%. This year also when world is coming out from Covid-19 pandemic situation & when the academic activities were shifted back to offline mode from online mode & there was a big challenge of changing the mindset of students to offline mode. This challenge was accepted by our faculties & student fertenty were succeeded in securing Top most position in summer-2022 MSBTE result throughout the state.

As we know in alignment with the National Education Policy (NEP), the Pharmacy Council of India, the apex body for regulating pharmacy education in the country, has revised syllabus for diploma course in pharmacy with an intention to make the pharmacists more practical oriented in their career. Through the new syllabus the pharmacy council wants to redefine the role of Indian pharmacists by making them experts in medicines as well as in the services of pharmaceutical care by strengthening their competencies. Further, the new generation pharmacists will know more about medical devices and their rules through the new syllabus. It will escalate the pharmacists from the level of dispensers to medicine experts with knowledge on regulatory side. In short through the new syllabus importance given to community pharmacy services & it is expected to equip the students to become pharmacist-cum-patient counselors. Hope we all will succeed in reaching to this endeavor.
